EVOLVEO StrongPhone G4 is equipped with an extremely strong, waterproof and rugged casing ensuring a maximum protection against adverse conditions, which can occur in everyday use. You will be surprised by the thin body and elegant design of the phone without sacrificing its durability.

Unique protective frame

The „SolidStone“ protective inner frame is made of Magnesium using highly advanced technology. This revolutionary frame gives the phone high functional endurance, protecting it from shocks and falls.

SONY Exmor R camera Full HD video

The phone is equipped with an 8.0 mpx camera using the SONY Exmor R image sensor. Video footage is recorded in Full HD quality.

Mediatek Quad Core processor

The new Mediatek quad-core processor surpasses competing solutions in the field of energy efficiency. It is based on powerful and battery-friendly ARM Cortex A53 architecture. Fast 64 bit processor operates at 1.4 GHz and the Mali T720 dual GPU provides enough power for high-end applications and games.

Sufficient RAM and plenty of internal storage

3 GB fast working RAM enables you to switch between the most demanding tasks effortlessly and play graphics intensive games without crashing or lagging. The 32 GB internal memory provides enough space for all your favourite applications, maps, music or movies.
